Canada

Trade-marks Journal

Vol. 64 No. 3283

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

(1) metal pipe couplings; pipe coupling assemblies; pipe connectors; metal ventilating ducts; metal refuse bins; solid waste compactors; bailers, shredders, grinders, granulators and hoists for bailing, shredding, grinding, granulating and hoisting solid waste; trash container fullness monitors; industrial pumps, namely pneumatic diaphragm pumps, liquefied gas pumps, positive displacement pumps, hose pumps, peristaltic pumps, gear pumps, single screw pumps and double screw pumps and regenerative turbine pumps, for transporting liquids; oil well supply equipment for use in the maintenance and servicing of oil wells; fueling nozzles for use in fueling motor vehicles, aircraft and homes and fittings therefor; tire pumps; metal containers for the storage and transportation of refuse in the solid waste industry; metallic closures for food containers for use in the food processing industry and food packaging industry; wire mesh; wire for electrified animal enclosures and fencing; metal fasteners for sealing food cases and food packaging enclosures for use in the food packaging industry; lifting, elevating, lowering, positioning and levelling apparatus and power equipment, and parts and accessories therefor, namely hydraulic lifts for automobiles, trucks and buses, hoists and load arms; pumps, namely air-operated double diaphragm pumps, liquefied gas pumps, positive displacement pumps, rotary vane pumps, vacuum pumps, vapor recovery pumps, hose pumps and eccentric piston pumps; manipulators comprised of robotic arms for industrial use operated by remote control; computerized and mechanical measuring devices for identifying and analyzing structural damage to vehicles, namely electronic measuring tape, laser scanners, computer software and terminals for analyzing diagnostic information about structural damage to vehicles for use in the automotive repair industry; machines for applying solder and related electronic materials in connection with production of printed circuit boards and other electronic substrates, namely stencil printers and screen printers; machinery for use in the manufacture and production of fuel cells and solar cells, namely metallization platforms comprised of presses and printers; clamps, namely manual toggle clamps, pneumatic clamps and hydraulic workholding clamps; tanks for preparing and processing food for use in the food processing and services

industries; mixing kettles, for use in the food services industry; refuse compacting and crushing machines and apparatus for handling compacted and crushed refuse; hydraulic pump units for pumping liquids, chemicals, paint, gas and dry bulk materials; pumps for the transfer of water and waste water in the water and waste water industries; refuse handling equipment, namely hydraulic trash can dumpers; refuse collection, compaction and transport equipment, namely truck-mounted, trailer-mounted and trailerized refuse containers and hoisting units; industrial trash compacting machines; garbage hoists; chemical handling equipment and cleaning systems, namely chemical and liquid proportioners in the industrial cleaning fields for mixing detergents and chemicals with a water stream in non-medical, non-dental and non-veterinary applications; automatic dispensers for proportioning, dispensing and pumping chemicals and cleaning solvents; high pressure water sprayers used for cleaning; fluid and liquid handling equipment, namely oil production equipment, specifically plunger lifts and sucker rods; high pressure fluid sprayers used for cleaning surfaces; centrifuges for liquid/solid separation; high pressure fluid sprayers comprised of proportioners for mixing, dispensing and spraying of chemicals and cleaning solvents; liquid level gauges; liquid level controls and alarms for tanks, cars, trucks, barges and stationary and intermodal tanks; pressure sensor for use in vapor and liquid flow lines; automated loading arms for industrial use; machinery, namely robotic arms, for use in the washing, drying, waxing and polishing of motor vehicles; fasteners, namely fastener pins, fastener bolts, fastener nuts, fastener screws and anchorages being made of metal; refrigerated beverage dispensers; electric heat lamps and hot plates and trays for use in the food services industry; equipment for use in the food services industry, namely preparation tables, upright refrigerators and freezers, blast chillers, equipment stands and food display cases and stands and walk-in coolers and freezers for food and beverage products; air purifying units; air ionizing units; resistance spot welder for use in operation of automotive lifts; machines for automated printing on and handling of containers, namely narrow web printing presses, web flexographic printing presses, inkjet printers and laser coders and printers; air control valves; fluid bearings; control instruments and apparatus for pumps and fluid motors, namely hydraulic controls for submarines and hydraulic controls, valves and actuators for aircraft landing gear; computer sensor for measuring and monitoring the level of liquid in a storage tank; liquid handling equipment, namely centrifugal pumps, positive displacement pumps and air, gas and vapor compressors; vapor recovery equipment, namely vapor recovery monitoring system comprised of monitoring unit, which monitors the vapor recovery equipment and emits an alarm if the amount of vapour recovered is too low or too high, and vapor recovery nozzles for carbon dioxide recovery, vapor recovery valves, vapor recovery equipment for brewing and fermentation, specifically booster compressors, evaporators and condensers; high frequency electronic circuit boards and microwave integrated circuits for use in microwave frequency applications; capacitors for microwave equipment; measuring instruments, namely thermometers, flow meters, pressure gauges and probes for measuring fluid flow; gas analyzers, namely gas well controller systems for analyzing well contents, gas monitoring transducers, pneumatic level analyzers and thermometers; valves, namely butterfly valves, control valves, check valves, dump valves, pressure relief valves, vacuum relief valves, bottom outlet valves, ball valves, hi-flow valves and top transfer valves; laser markers for printing information on plastics, glass, painted metal and cardboard, for use in the manufacture and packaging of food and beverages, cosmetics, toiletries and pharmaceuticals; electronic controllers for controlling productivity of oil and gas well installations; computer network system comprised of modular computer terminals; x-y scanning densitometers; computer printers; electrical controls for inkjet printers; radio frequency and microwave filters; microwave receivers and transmitters, and high frequency electronic circuit boards and microwave integrated circuits, for use in the receipt and transmission of microwave frequencies; capacitors; machinery, namely robotic arms, for use in the assembly and production of electronic components, and computer software for the operation thereof; electronic controllers controlling production of oil and gas well installations; automatic control valves and liquid level controllers; automatic industrial check valves; machinery, namely robotic arms, for use in the manufacture and production of semiconductor chips ; gas flow gauges and indicators; electronic products using microprocessors, namely ATM machines, semiconductor bare board testers, electronic quartz pressure transducers for high-reliability or high-temperature applications for use in the downhole oil and gas industries; machinery, namely robotic arms, for use in the assembly and production of electronic circuit boards ; computer software for operating inkjet printers for commercial and industrial use; control and integration software for pressroom automation; computer software for monitoring, reporting and analyzing pressroom operations; crystal oscillators; food processing equipment, namely electrically powered cooking systems, specifically oven burners and pot boilers, convection powered cooking systems, specifically convection ovens, combination ovens and connectionless steamers; electric and gas heated tilted braising pans; installations and apparatus for cooling and chilling, namely freezers, refrigerators and parts thereof, walk-in refrigerators, reach-in refrigerators, wall-type refrigerators, florist refrigerators, cold storage doors, defrosters for refrigerators, refrigeration condensing units for commercial and industrial use and computer control terminals therefor; medical waste compactor; refrigerated countertops; refrigerators for commercial and industrial use; refrigeration store display units; truck trailers and parts thereof; refuse collection vehicles; truck-mounted front-loading waste compactors

(2) alignment joints and metal couplings for use with pneumatic applications on aircraft; ventilation systems, namely ventilation ducts; aluminum wire for use in fencing; aluminum wire for food processing; automatic fueling nozzles and rubber fueling hoses for commercial and industrial use, metal wands for dispensing foam soap and water spray guns for proportioning and dispensing, in the fields of janitorial, institutional, food service, commercial cleaning, industrial and automotive care; metal alloy tapes for use in transmission of motors in master-slave manipulators; metal pipe coupling assemblies; manually operated metal valves for tank cars, trucks, barges and stationary and intermodal tanks, namely manually operated valves for mobile and stationary storage, internal valves, sequential and conventional vapor valves; metal pipe swivel joints; metal fasteners, namely clip closures for use in closing food and sausage casings, and closing and vacuum-sealing packaging for meat, poultry and other food products; metal mixing kettles, for use in the food services industry; metal storage tanks for use in the food processing industry; food packaging systems, namely aluminum clips; pneumatic sealing devices, namely o-rings and piston rings for commercial and industrial use

(3) vehicle service lifts, and parts and accessories therefor, namely high lift wheel dolly, rolling jacks, mobile productivity lifts and productivity jacks; belt, chain, roller and track conveyors; truck- and trailer-mounted storage tanks; hydraulic locking actuators for commercial and military applications; high strength structural fasteners for use in the aerospace industry, namely bolts, fuse pins and hinge pins; aircraft engine hot section and rotating parts; can and plastic container making machinery, namely neckers, trimmers, reformers, flangers, bottom coaters, plastic trimmers and finishers; plastic container trimming and burnishing machines; compression and engine components, namely packing cases, fuel injection valves, piston rods, pistons, reciprocating compressor valves, rod rings and compression valve restraints; hydraulic controls for aircraft; automation products, namely parallel grippers, angular grippers, guide rails, linear actuators, rotary actuators, feed escapements, robotic tool changers, compliance wrists, mounting stanchions, sheet metal rippers, swing clamps, power clamps and cam driven indexers; meat chopping machines; vacuum packaging machines, and parts and fittings therefor; packaging machines, namely machines that apply packaging clips and machines that apply packaging clips and handle and fill packaging; engine components, namely piston kits, connecting rods, gasket kits, clutch parts, cylinder sleeves, oil sleeves, dust caps and bearing valves for motorcycles, mopeds, scooters,

all-terrain vehicles and personal watercraft; machine parts, namely hydraulic cylinders; fluid controls for submarines; printing machines for printing materials on workpieces, namely textiles, plastic substrates and paper; screen printing machines for printing materials on workpieces; metal printing screens and metal and synthetic stencils for printing on electronic circuit boards; emulsion screens; laser-cut stencils; drill-cut stencils; electroformed stencils; frames for supporting printing screens; printing heads; screen printing heads; ball transfer heads; electrical machinery for use in the mounting of metal printing screens in frames and parts thereof; printing and marking machines for industrial coding, product identification and traceability solutions for commercial and industrial use; industrial machinery, namely electromechanical marking machines for product identification solutions, namely traceability and brand protection solutions for commercial and industrial use; inkjet printers for commercial and industrial use; thermal printing machines; automatic industrial labelling machines for applying labels to containers and bottles; machines for printing, fitting, affixing and applying labels; programmable thermal transfer coders; radio frequency tag readers and encoders; printers for applying radio frequency tags; smart labels containing identification information or information sensors; air, gas and vapor compressors; semiconductor manufacturing machines and parts thereof; food and beverage can manufacturing equipment, namely presses and tooling for manufacturing cans and components thereof; pumps, namely air-operated double diaphragm pumps, liquefied gas pumps, rotary vane pumps, vacuum pumps, vapor recovery pumps, hose pumps and eccentric piston pumps; gear reducers for machines; bypass valves, namely bypass valves for positive displacement pumps; mechanical seals and seal assemblies; remotely controlled industrial robot arms; integrated circuit manufacturing machines; robotic gripping arms for industrial use; robotic loading arms for industrial use; pneumatic, hydraulic and electronic tensioning devices and gripping tools, namely torque wrenches, hydraulic wrenches and enclosed pneumatic clamps; machine parts, namely bearing housings; refuse collection, compaction and transport equipment, namely truck-mounted, trailer-mounted and trailerized refuse containers; hoisting units, namely roll-off hoists, for loading and unloading containers on commercial and industrial vehicles; conveyors; subsurface equipment for use in the oil industry, namely plungers, downhole equipment, specifically springs, valves, tubing stops and collar locks, control valves, butterfly valves and pumps; printing presses; automated loading arms for industrial use; fuel pumps for fueling of motor vehicles, for use in the oil and gas industries; electric motors for machines; end effectors, grippers, rotary actuators, automatic tool changers, collision clutches, all for industrial robots; machinery for processing industrial fluid streams and industrial products equipment and media for liquid/solid separation, filtration and mixing, namely mixers; ball bearings and journal bearings, namely journal bearings, rod end bearings, self-lubricated bearings, spherical bearings, standard bearings, tilting pads and fluid film thrust bearings for use in rotating equipment, specifically steam turbines, gas turbines, compressors, marine propulsion systems, motors and generators; packaging automation machinery for forming, folding and packaging boxes and cartons ; ultrasonic degreasing and cleaning machine for cleaning mechanical devices using terpene compounds; plastic polishing and refurbishing machines; machines for automated printing on and handling of containers, namely dry-offset printing machines for the packaging industry, cup printers, pail printers, lid printers and tube printers; soldering machines for use in the manufacture of printed circuits; bowl mixers for the preparation of food products, for use in the food services industry

(4) machinery for use in the production of electronic circuit boards, namely conveyer belts and robotic arms for the conveyance, handling and manipulation of parts along a production line; optical sensors for the inspection of parts along a production line, and parts and fittings therefor; computer software and terminals to control and initiate a carwash; tunnel carwash controllers; hydraulic aircraft components, namely actuators and control valves; electrical power distribution blocks for use in connection with commercial kitchen equipment; thermal transfer printing machines; label printing machines; automated machinery for printing, fitting and applying labels to corrugate cases;

smart label readers and encoders; electronic label encoders; reading and encoding machines for radio frequency identification markers; machines for applying radio frequency identification markers and smart labels; computer software for operating printers, for use in the manufacturing and packaging industries; computer software for operating labeling and coding machines, for use in the manufacturing and packaging industries; computer software to control inkjet printers for commercial and industrial use; liquid backflow prevention valves; integrated cosite equipment, namely cosite interference filters for use in the radio-telecommunications industry, comprised of tunable filter modules, low-noise amplifiers and controls therefor; sliding vane pumps; peristaltic pumps; reciprocating gas compressors; centrifugal process pumps; bar code label printers; printer accessories, namely thermal printheads; hand-held thermal and impact printers; barcode scanners and readers; trimmer capacitors; ceramic packaging for use in the further manufacture of integrated circuits and electronic devices; automatic valves, namely hydraulic, pneumatic and solenoid valves and control valves for aircraft and submarines; laser scanners for industrial inspection; electrical, electronic and radio-controlled switches for crane systems; computer hardware and software for monitoring, reporting and analyzing pressroom operations; electronic circuit components and electromagnetic structures for selective frequency control within the electromagnetic spectrum, namely crystal-controlled oscillator circuits, transducers and electromechanical switches, coaxial and wave guide switches and telecommunications power signal routing switches; electronic measuring, reference and calibration apparatus and instruments for use in sensing and measuring density, flow, pressure, force, torque, weight, temperature and inertial parameters, namely measuring densitometers and quartz pressure transducers to measure pressure and temperature in oil and gas exploration and production; automatic metered dispensers for cleaning chemicals; programmable pump dispensing unit for commercial dishwasher and laundry applications; automatic laundry and dish detergent dispenser

(5) cooking equipment, namely steam jacketed kettles and cooker/mixers comprised of a steam jacketed kettle and a high speed agitator; tilting skillets and steamers; cook-chill machinery, namely cook tanks, chiller cook tanks and tumble chillers, for use in the food processing and services industries; water filtering units for use in the food processing and services industries; cooking equipment, namely a combination steamer and oven; furnace boilers; food preparation tables; combination refrigerator-freezers; food and beverage chilling equipment, namely temperature controlled thaw boxes; ice dispensers for use in the food services industry; mobile cafeteria serving units; display cases; utility distribution units for supplying and controlling the supply of gas, electricity, water, steam, air of refrigerant to utilization outlets for use in connection with commercial kitchen equipment and ventilation systems; kitchen ventilation systems and hoods; refrigerated display cases for use in grocery stores; refrigeration compressors, namely open drive compressors, screw and scroll compressors, parallel, integral, semi-hermetic and low speed belt-driven compressors; electrically powered cooking systems, namely convection steamers; hot food tables for use in the food services industry; self-contained ice cream cabinets; refrigerated display racks; refrigerated tables, counters and shelving parts and accessories therefor; water filters, namely mechanically cleaned filters, backwash filters, reverse osmosis filters and disposable media filters, all for reprocessing of waste water; exhaust hoods and air volume controllers for the ventilation of kitchens for commercial and residential use; heat exchangers for industrial use; electric immersion heaters for heating food and beverages; electric immersion coolers for cooling food and beverages; filters for removing foreign particles from hoses, pipes and tubing transporting liquids; dust filters for vacuums; disposable filters for removing foreign particles from hoses, pipes and tubing transporting water, for use in the food services industry; disposable filters for collecting food waste, for use in the food services industry

(6) metal pipe couplings and joints, namely, alignment joints and metal couplings for use with pneumatic applications on aircraft; ventilation systems, namely ventilation ducts of metal; aluminum wire for use in fencing; aluminum wire for food processing; hose nozzles and rubber hoses for use in the transport of hazardous bulk products, petroleum, chemical and dry bulk cargo, and parts and fittings therefor, metal wands for dispensing foam soap and water spray guns for proportioning and dispensing, in the fields of janitorial, institutional, food service, commercial cleaning, industrial and automotive care; metal alloy tapes for use in transmission of motors in master-slave manipulators; metal pipe coupling assemblies; metal ventilating ducts; metal refuse bins; manually operated metal valves for tank cars, trucks, barges and stationary and intermodal tanks, namely manually operated valves for mobile and stationary storage, internal valves, sequential and conventional vapor valves; metal pipe swivel joints; metal containers for the storage and transportation of refuse in the solid waste industry; metallic closures for food containers for use in the food processing industry and food packaging industry; metal fasteners, namely clip closures for use in closing food and sausage casings, and closing and vacuum-sealing packaging for meat, poultry and other food products; metal mixing kettles, for use in the food services industry; metal tanks for preparing and processing food for use in the food processing and services industries; food packaging systems, namely aluminum clips; pneumatic sealing devices, namely o-rings and piston rings for commercial and industrial use

(7) power operated vehicle service lifts, and parts and accessories therefor, namely high lift wheel dolly, rolling jacks, mobile productivity lifts and productivity jacks; belt, chain, roller and track conveyors; hydraulic locking actuators for commercial and military applications; high strength structural fasteners for use in the aerospace industry, namely bolts, fuse pins and hinge pins; aircraft engine hot section and rotating parts; can and plastic container making machinery, namely neckers, trimmers, reformers, hangers, bottom coaters, plastic trimmers and finishers; plastic container trimming and burnishing machines; compressor and engine components, namely packing cases, fuel injection valves, piston rods, pistons, reciprocating compressor valves, rod rings and compression valve restraints; hydraulic controls for aircraft; automation products, namely parallel grippers, angular grippers, guide rails, linear actuators, rotary actuators, feed escapements, robotic tool changers, compliance wrists, mounting stanchions, sheet metal rippers, swing clamps, power clamps and cam driven indexers; meat chopping machines; vacuum packaging machines, and parts therefor; packaging machines, namely machines that apply packaging clips and machines that apply packaging clips and handle and fill packaging; engine components, namely piston kits, connecting rods, gasket kits, clutch parts, cylinder sleeves, oil sleeves, dust caps and bearing valves for motorcycles, mopeds, scooters, all-terrain vehicles and personal watercraft; machine parts, namely hydraulic cylinders; printing machines for printing materials on workpieces, namely textiles, plastic substrates and paper; screen printing machines for printing materials on workpieces ; metal printing screens and metal and synthetic stencils for printing on electronic circuit boards, emulsion screens, laser-cut stencils, drill-cut stencils, electroformed stencils, namely, printing screens; frames for supporting printing screens; printing heads, screen printing heads and ball transfer heads as parts for high-speed printing machines; machinery for use in the handling and support of workpieces for use in conjunction with inkjet and laser printers; machinery for use in the mounting of metal printing screens in frames and parts thereof; printing and marking machines for industrial coding, product identification and traceability solutions for commercial and industrial use; industrial machinery, namely electromechanical marking machines for product identification solutions, namely traceability and brand protection solutions for commercial and industrial use; inkjet printers for commercial and industrial use; thermal printing machines; automatic industrial labelling machines for applying labels to containers and bottles; machines for printing, fitting, affixing and applying labels; printers, namely, programmable thermal transfer coders; printers for applying radio frequency tags; air, gas and vapor compressors; lifting, elevating, lowering,

positioning and levelling apparatus and power equipment, namely hydraulic lifts for automobiles, trucks and buses, hoists and load arms; hoists; semiconductor manufacturing machines and parts thereof; hydraulic trash can dumpers; food and beverage can manufacturing equipment, namely presses and tooling for manufacturing cans and components thereof; pumps, namely air-operated double diaphragm pumps, liquefied gas pumps, positive displacement pumps, rotary vane pumps, vacuum pumps, vapor recovery pumps, hose pumps and eccentric piston pumps; gear reducers for machines; bypass valves, namely bypass valves for positive displacement pumps; piston rings; mechanical seals and seal assemblies; remotely controlled industrial robot arms; machinery for use in the manufacture and production of fuel cells and solar cells, namely metallization platforms comprised of presses and printers; integrated circuit manufacturing machines; robotic gripping arms for industrial use; robotic loading arms for industrial use; pneumatic, hydraulic and electronic tensioning devices and gripping tools, namely torque wrenches, hydraulic wrenches and enclosed pneumatic clamps; machine parts, namely bearing housings; hydraulic pump units; refuse collection, compaction and transport equipment, namely truck-mounted, trailer-mounted and trailerized refuse containers; hoisting units, namely roll-off hoists, for loading and unloading containers on commercial and industrial vehicles; industrial trash compacting machines; compactors, bailers, shredders, grinders, granulators and hoists for compacting, bailing, shredding, grinding, granulating and hoisting solid waste; conveyors; medical waste compactors; truck-mounted front-loading waste compactors; high pressure fluid sprayers used for cleaning surfaces; fluid handling equipment, namely oil production equipment, specifically plunger lifts; subsurface equipment for use in the oil industry, namely plungers, downhole equipment, namely springs, valves, tubing stops and collar locks, control valves, butterfly valves and pumps; liquid handling equipment, namely sucker rods; printing presses; automated loading arms for industrial use; fuel pumps for fueling of motor vehicles, for use in the oil and gas industries; machinery, namely robotic arms, for use in the washing, drying, waxing and polishing of motor vehicles; electric motors for machines; end effectors, grippers, rotary actuators, automatic tool changers, collision clutches, all for industrial robots; centrifuges for liquid/solid separation; machinery for processing industrial fluid streams and industrial products equipment and media for liquid/solid separation, filtration and mixing, namely mixers and centrifugal pumps; ball bearings and journal bearings, namely journal bearings, rod end bearings, self-lubricated bearings, spherical bearings, standard bearings, tilting pads and fluid film thrust bearings for use in rotating equipment, namely steam turbines, gas turbines, compressors, marine propulsion systems, motors and generators; packaging automation machinery for forming, folding and packaging boxes and cartons; ultrasonic degreasing and cleaning machine for cleaning mechanical devices using terpene compounds; plastic polishing and refurbishing machines; machines for automated printing on and handling of containers, namely dry-offset printing machines for the packaging industry, cup printers, pail printers, lid printers and tube printers; soldering machines for use in the manufacture of printed circuits; bowl mixers for the preparation of food products, for use in the food services industry; high pressure fluid sprayers comprised of proportioners for mixing, dispensing and spraying of chemicals and cleaning solvents; refrigeration compressors, namely open drive compressors, screw and scroll compressors, parallel, integral, semi-hermetic and low speed belt-driven compressors

(8) machinery for use in the production of electronic circuit boards, namely conveyer belts and robotic arms for the conveyance, handling and manipulation of parts along a production line; optical sensors for the inspection of parts along a production line, and parts and fittings therefor; computer software and terminals to control and initiate a carwash; electrical controllers, namely tunnel carwash controllers; hydraulic aircraft components, namely hydraulic actuators and hydraulic control valves; electrical power distribution blocks for use in connection with commercial kitchen equipment; machinery, namely robotic arms, for use in the manufacture and production of

semiconductor chips; thermal transfer printing machines; label printing machines; automated machinery for printing, fitting and applying labels to corrugate cases; smart label readers and encoders; electronic label encoders; reading and encoding machines for radio frequency identification markers; machines for applying radio frequency identification markers and smart labels, inkjet printers; computer software for operating printers, for use in the manufacturing and packaging industries; computer software for operating labeling and coding machines, for use in the manufacturing and packaging industries; computer software to control inkjet printers for commercial and industrial use; liquid backflow prevention valves; radio frequency filters for electronic and communication systems; integrated cosite equipment, namely cosite interference filters for use in the radio-telecommunications industry, comprised of tunable filter modules, low-noise amplifiers and controls therefor; bar code label printers; hand-held thermal and impact printers; barcode scanners and readers; trimmer capacitors; liquid proportioning and metering instruments and apparatus, namely chemical and liquid proportioners in the industrial cleaning fields for mixing detergents and chemicals with a water stream in non-medical, non-dental and non-veterinary applications; liquid handling equipment, namely automatic butterfly valves, high frequency electronic circuit boards and microwave integrated circuits for use in microwave frequency applications; capacitors for microwave equipment; ceramic packaging for use in the further manufacture of integrated circuits and electronic devices; pressure gauges; automatic valves, namely hydraulic, pneumatic and solenoid valves and control valves for aircraft and submarines; laser scanners for industrial inspection; laser markers for printing information on plastics, glass, painted metal and cardboard, for use in the manufacture and packaging of food and beverages, cosmetics, toiletries and pharmaceuticals; electrical, electronic and radio-controlled switches for crane systems; x-y scanning densitometers; computer printers; electrical controls for inkjet printers; radio frequency and microwave filters; electronic circuit components and electromagnetic structures for selective frequency control within the electromagnetic spectrum, namely crystal-controlled oscillator circuits, transducers and electromechanical switches, coaxial and wave guide switches and telecommunications power signal routing switches; electronic microwave transmitters and receivers; liquid level gauges; liquid level controls and alarms for tanks, cars, trucks, barges and stationary and intermodal tanks; capacitors; control and integration software for pressroom automation; electronic controllers controlling production of oil and gas well installations; automatic control valves and liquid level controllers; automatic industrial check valves; gas flow gauges; electronic products using microprocessors, namely ATMs, screen printers and semiconductor bare board testers; electronic measuring, reference and calibration apparatus and instruments for use in sensing and measuring density, flow, pressure, force, torque, weight, temperature and inertial parameters, namely measuring densitometers and quartz pressure transducers to measure pressure and temperature in oil and gas exploration and production; pressure sensor for use in vapor and liquid flow lines; crystal oscillators; trash container fullness monitors; inkjet printers; computerized measuring devices for identifying and analyzing structural damage to vehicles, namely electronic measuring tape, laser scanners, computer software and terminals for analyzing diagnostic information about structural damage to vehicles for use in the automotive repair industry; automatic metered dispensers for cleaning chemicals; programmable pump dispensing unit for commercial dishwasher and laundry applications; automatic laundry and dish detergent dispenser; automatic dispensers for proportioning, dispensing and pumping chemicals and cleaning solvents

(9) cooking equipment, namely steam jacketed kettles and cooker/mixers comprised of a steam jacketed kettle and a high speed agitator; tilting braising pans or tilting skillets and steamers; cook-chill machinery, namely cook tanks, chiller cook tanks and tumble chillers, for use in the food processing and services industries; water filtering units for use in the food processing and services industries; cooking equipment, namely a combination steamer and oven; furnace boilers; food preparation tables; combination refrigerator-freezers; food and beverage chilling equipment,

namely temperature controlled thaw boxes; ice dispensers for use in the food services industry; mobile cafeteria serving units; refrigerating display cases; kitchen ventilation systems and hoods; refrigerated display cases and refrigerators, namely walk-in refrigerators, reach-in refrigerators, wall-type refrigerators, cold storage doors, refrigerated store fixtures and refrigeration condensing units; electrically powered cooking systems, namely convection steamers, combination ovens, connectionless steamers, steam jacketed kettles and electric and gas heated tilted braising pans; installations and apparatus for cooling and chilling, namely refrigerators, freezers and refrigerated display cases for use in grocery stores; hot food tables for use in the food services industry; self-contained ice cream cabinets; electric heat lamps and hot plates and trays for use in the food services industry; equipment for use in the food services industry, namely preparation tables, upright refrigerators and freezers, blast chillers, equipment stands and food display cases and stands, reach-in refrigerators and walk-in coolers and freezers for food and beverage products; florist refrigerators; defrosters for refrigerators, coolers, freezers and refrigerated display cases; refrigerated display racks; refrigerated tables, counters and shelving parts and accessories therefor ; water filters, namely mechanically cleaned filters, backwash filters, reverse osmosis filters and disposable media filters, all for reprocessing of waste water; pressure liquid filter systems comprised of filters, filter casings, valves, controls, pressure sensor for use in vapor and liquid flow lines, liquid pressure sensors, liquid flow valves and bag filter systems for filtering liquids for use in the mining, hydrometallurgy, chemical, petroleum, manufacturing, environmental, paper and pulp, pharmaceutical, food and beverage industries; exhaust hoods and air volume controllers for the ventilation of kitchens for commercial and residential use; heat exchangers for industrial use; electric immersion heaters for heating food and beverages; electric immersion coolers for cooling food and beverages; refrigerators for commercial and industrial use; refrigeration store display units ; filters for removing foreign particles from hoses, pipes and tubing transporting liquids; dust filters for vacuums; disposable filters for removing foreign particles from hoses, pipes and tubing transporting water, for use in the food services industry; disposable filters for collecting food waste, for use in the food services industry
